MEMORANDUM FOR THE DIRECTOR

FROM: CDR McMahon

SUBJECT: Tasks for Vince Davis

✓ 1. By June we should be in the middle of negotiating the thorny issues of Title I. Vince is familiar with the charter legislation and the "principles" involved. He might be just the man to develop compromise language which would satisfy the contestants.

2. Other options would be to apply his organizational/managerial talent to one of the following problems in descending order of priority:

- Implementation of NITC coordinating function;
- ✓ -- Resolving three-way conflict between NITC/RMS/NFAC on "evaluation" function;
- Sorting out roles for Legislative Counsel and ways to improve Congressional relations;
- ✓ -- Establishing a mechanism for DCI control and monitoring of implementing procedures which follow from restrictions on activity in the Executive Order.
